**Streamline Your
Signage & Printing Industry**

with **Tech Cloud ERP**

Tech Cloud ERP Software Pvt. Ltd. is an India-based software development company offering a spectrum of information technology, consulting and business enhancement services.

In the **signage and printing industry**, precision, coordination and on-time delivery are crucial. Managing everything from on-site surveys to production, inventory and installation can be overwhelming. That's where **Tech Cloud ERP** makes the difference by empowering businesses with a seamless and fully integrated system to optimize operations, reduce errors and enhance efficiency.

Why Choose Tech Cloud ERP?

- **Streamlined Operations:** A single, centralized platform to seamlessly manage site surveys, production, installation and financial operations.
- **Inventory & Resource Management:** Real-time stock tracking ensures you never run out of critical materials.
- **Seamless Workflow Automation:** From project planning to final execution, keep everything running smoothly.
- **Real-Time Insights & Reporting:** Gets actionable data on costs, efficiency and performance to make informed decisions.
- **Enhanced Team Collaboration:** Keeps your teams connected with real-time updates, task assignments and communication tools.

Recce Management

- Assign and manage on-site surveys.
- Captures real-time data, photos and measurements.

Sales Management

- Handle sales quotations and orders efficiently.
- Generate invoices and process customer payments seamlessly.
- Gain insights into sales performance with advanced reporting.

Purchase & Inventory Control

- Track purchase orders and supplier transactions.
- Manage stock levels with automated inventory monitoring.
- Simplify material requests and transfers to prevent delays.

Introduction

Key Modules

Production, Fabrication & Installation Management

- Optimize production workflows from design to installation.
- Track work orders and manage tasks effortlessly.
- Get real-time updates on job progress and installation status.

Finance & Accounting

- Automate journal entries, bank reconciliations and financial reporting.
- Manage customer payments, supplier invoices and budgeting.
- Generate key financial statements such as profit & loss and balance sheets.

HRM & Team Coordination

- HRM app manages employee profiles, attendance and leave in one simple platform.
- Assign tasks, monitor team performance and automate core HR processes.
- Ensures smooth coordination between sales, production and installation teams.

Project Management

- Easily plan, schedule and manage signage or printing projects from start to finish.
- Assign tasks to the right teams and allocate resources efficiently.
- Track progress and ensure every project is delivered on time.

Mobile App for Recce & Installation

To enhance efficiency, we developed a Recce & Installation mobile app for seamless communication from site surveys to final installation, reducing errors and improving execution. The Recce module enables field teams to inspect sites, record measurements and capture essential data, ensuring precise planning and coordination for successful installations.

Key Features of the Recce App:

- **Pre-Installation Checklists:** Assess site conditions, measurements and space availability.
- **Photo & Video Capture:** Uploads site photos/videos for accurate project planning.
- **Task Assignments:** Manages installation tasks, track job scope and deadlines.
- **GPS Navigation:** Real-time route planning for quick access to installation sites.
- **Progress Tracking & Sign-Offs:** Keep clients in the loop with status updates and visual approvals using file/image uploads.
