ERP Software for **Medical Domain**

Tech Cloud ERP Software Pvt. Ltd., is a india based software development company offering a spectrum of information technology, consulting and business enhancement services.

Introduction

In today’s healthcare environment, whether you're managing a pharmaceutical company, hospital, medical device firm, or diagnostic lab, staying compliant, connected and efficient is more important than ever. **Tech Cloud ERP for Healthcare** helps to simplify operations, ensure regulatory compliance and improve care delivery across the entire medical ecosystem.

Enhance Efficiency with Tech Cloud ERP

- ✓ **Seamless Regulatory Compliance**
With **Tech Cloud ERP**, effortlessly track and adhere to industry regulations, ensuring smooth compliance while reducing legal risks.
- ✓ **Supply Chain Management**
Gain real-time visibility into inventory, preventing overstocking and stockouts, while ensuring timely production and delivery.
- ✓ **Enhanced Quality Control**
Automate quality checks to maintain consistency, reduce defects and strengthen brand reputation.
- ✓ **Effortless System Integration**
Connect all departments seamlessly for improved communication, accurate data flow and increased operational efficiency.

Key Features

- ✓ **CRM & Customer Service:** Enhances customer interactions with efficient order tracking and after sales support.
- ✓ **Lot and Serial Number Tracking:** Ensures full traceability of materials and products, improving recall management.
- ✓ **Document & Change Management:** Manages version control and approvals to maintain a clear audit trail.
- ✓ **Production Planning & Scheduling:** Optimises workflows to reduce delays and improve efficiency.

- ✓ **Supplier and Vendor Management:** Streamlines procurement and strengthens supplier relationships.
- ✓ **Inventory & Warehouse Management:** Provides real-time stock tracking to prevent shortages and excess inventory.
- ✓ **Financial Management:** Automates invoicing, tracks expenses and gives insights into profitability.

Modules

- **Customer Relationship Management (CRM):** Manages customer interactions, order tracking and sales processes to improve client satisfaction.
- **Research & Development (R&D):** Helps in developing new products, managing regulatory approvals and driving innovation.
- **Sales Management:** Automates the sales cycle, from enquiries to order fulfilment, ensuring smooth transactions.
- **Production Management:** Monitors and manages the production process to ensure timely, efficient and high-quality output.
- **Inventory & Warehouse Management:** Monitors stock levels, automates replenishment and optimises storage utilisation.
- **Product Management:** Keeps track of product lifecycles, specifications and modifications to ensure consistency.
- **Quality Control (QC) & Quality Assurance (QA):** Ensures compliance with industry standards by automating testing and inspections.
- **HR & Payroll Management:** Manages employee records, payroll processing and workforce administration.
- **Fixed Asset Management:** Tracks company assets, monitors depreciation and schedules maintenance.
- **Plant Maintenance:** Ensures smooth equipment functioning with preventive maintenance and breakdown tracking.
- **Accounts & Finance:** Handles all financial transactions, budgeting and reporting to support better decision-making.
- **Compliance Management:** Helps your business follow all rules and regulations by keeping everything organised, reducing the chance of mistakes and making audits easier.

Using Tech Cloud ERP, medical businesses can streamline operations, ensure compliance and drive long-term growth.
